I hope you will cruise through all these cover designs and pick out elements you like, and make notes for future reference

Notice the ones with the red arrrows - crappy covers, in my opinion. The ones with an added partial red or full red arrow are beyond bad. One has 3 - the very worst, ever.

Remember you have so many opportunities for a great cover don't skimp, don't sacrifice and please, don't make the mistakes we go over in the workshop classes!
